GITHUB: https://github.com/TheDecoder007

PORTFOLIO: https://thedecoder007.github.io/3d-react-portfolio/

Summary

My passion is developing cutting edge experiences in the metaverse for high profile clients worldwide. Successes include builds for Samsung, Netflix, and Sandstorm among many others. I love the prospects of web3 & the metaverse, building apps, and constantly expanding my knowledge of coding languages. Projects also include full MERN stack, API's, and more. Strong leadership experience with proven success in team management, strategic operations, business development, and customer service.

Technical Skills

Languages: HTML, CSS, Node, JavaScript, MERN, React, TypeScript
Frameworks: Bootstrap, React-Bootstrap, Bulma

Projects

SandStorm
Link to Github: https://github.com/last-slice/sandstorm-hq

- Lead dev for building the HQ of Sanstorm in the metaverse
- Advisory to client on what is possible in the metaverse, and going beyond expectations
- Communication and coordination to meet deadlines with 5 other members of team all working remotely
-

Decentraland
Link to Github: https://github.com/TheDecoder007/VoiceBox_Lawn
Link to Project:
https://play.decentraland.org/?position=142%2C106&realm=unicorn&island=I59kf

- Decentraland is one of the premier metaverses, where you use Typescript and the Decentraland SDK to build magical experiences
- Experience on several large projects with global corporations, building their metaverse experience to specification
- This is a personal build, where I test and implement advanced techniques using the SDK
- Sign in as a guest to see the build

WeTravelToo
Link to Github: https://github.com/TheDecoder007/weTravelToo
Link to Project: https://we-travel-too.herokuapp.com/
- Full MERN stack app. Create accounts, JWS token verification, password hashing. Once verified, other options become available only to users.
- Responsibilities: Project lead. Included full front-end design and functionality using react-bootstrap, and back end code for Mongo and Express. Team management.
- Full MERN stack, react-bootstrap, fully responsive

Experience

Director of Operations, La Boca Inc. Middletown, CT, USA
2008-Present
- Developed and supervised standard operating procedures and managerial assignments.
- Innovated new ideas to drive business, with a significant increase recorded each year.
- Guided ownership towards new technologies available for website, POS(Toast) and integration of 3rd party delivery companies. Thorough knowledge of Toast back end, programming, and design.
- Onboarded said technologies, maintained their operation, implemented procedures and training for staff on usage.
- Resolved customer complaints effectively while maintaining positive customer relations.
- Interpretation of constantly changing guidelines during Covid and restructuring operations effectively.
- Analyzed relative costs and benefits of potential actions to choose most appropriate course.
- Bolstered online presence including website engagement and social media platforms.

Skills: Team Leadership · Project Management · Customer Experience · Critical Thinking · Operations Management

Recreation Director, KidsPeace National Centers of Georgia. Carrolton, GA, USA
2004-2007
- Coordinated with activity leaders to schedule daily, weekly and monthly activities and outings for 60 troubled teens
- Established relationships and applied for grants with area programs for ongoing free admission for clients and staff
- Developed and maintained departmental goals and objectives with procedures for implementation.
- Created documentation to summarize and explain benefits of products.
- Helped children to develop positive self-esteem and sense of self-worth.
- Ensured coverage of services, supervision and crisis support.

Skills: Crisis Intervention · Student Counseling · Program Development · Team Coordination · Event Planning
